Safety Information

Please ensure you read and fully understand instructions before use

While every attempt is made to ensure the highest degree of protection in all equipment, we cannot guarantee freedom from injury. The user assumes all risk of injury due to use. All merchandise is sold on this condition, which no representative of the company can waive or change.

- This product is not a toy, and is only to be used for its designated purpose.
- Never carry out any alterations or modifications to this product.
- Clean only with a damp cloth. Do not use strong industrial cleaning substances or abrasive materials as these will damage the product.
- If at any time during digging you feel faint, dizzy or experience pain, stop and take a break.
- Leaving the product outside exposed to weather, especially direct sun and rain, will speed the weathering process. This can be slowed by removing the product from these conditions.
- Do not carry out alterations or modifications to this product.
- Do not discard any of the packaging until you have checked that you have all of the parts and fittings required.
- Not suitable for use by children.
- If the product is damaged or has any defects, please contact cservice@oypla.com
- **WARNING: The end of the earth auger is sharp, and can therefore cause injury if not used correctly. We recommend wearing steel toe capped footwear whilst operating this product to protect your feet from the sharp end.**

What's In The Box?

Please note that you will be referring to the below parts list during assembly

If any of the below parts are missing or damaged, please contact our dedicated team at cservice@oypla.com.

Assembly Instructions

Please refer to the below information to help assemble your Oypla product

If you require assistance with the assembly of your Oypla product, please contact our dedicated team at cservice@oypla.com.

The auger's assembly is incredibly straight forward. Simply use the nut and bolt provided to attach the handle to the rest of the auger body.

It is recommended that the nut is tightened using a suitably sized spanner or wrench, being careful not to over-tighten as this may damage the product.
