

OYPLATM HOME

6 Bottle Spirit Dispenser

Safety Instructions

Notice: Ensure you read and fully understand instructions before use

While every attempt is made to ensure the highest degree of protection in all equipment, we cannot guarantee freedom from injury. The user assumes all risk of injury due to use. All merchandise is sold on this condition, which no representative of the company can waive or change.

- This product should only be used for its designated purpose.
- Do not carry out alterations or modifications to this product.
- This product is intended for indoor use only.
- Clean only with a damp cloth. Do not use strong industrial cleaning substances or abrasive materials as these will damage to product.
- Make sure all screws and fittings have been removed from the product carton before disposing of the carton.
- If using the product for alcoholic beverages, please drink responsibly (www.drinkaware.co.uk).
- Before using the product, make sure all screws are tightly in place and that everything is in order, and checked periodically by an adult.
- Do not attempt to exceed the height limit of 35cm (to note, most bottles will be at this height or below).
- Dispenses 50ml per push. Allow for the dispenser to fill back up before pushing again to avoid creating a blockage.
- Make sure product is secure before fitting bottles.
- Pinch points can cause personal injury.
- If the product is damaged or has any defects, please contact cservice@oypla.com

Operating Instructions

Parts List:

Please be aware that you will be referring to this parts list throughout the assembly process.

<p>Dispenser Frame</p>  <p>1pcs</p>	<p>50ml Dispenser</p>  <p>6pcs</p>	<p>Screws</p>  <p>8pcs</p>
--	--	---

1. Place the 50ml dispenser into the bottom section of the dispenser frame (as seen in the picture below) then secure it into place using the quick release pin as shown by circled part (below). Ensure that the pin is holding the 50ml dispenser to the frame as if it is loose this may make any bottles placed onto this 50ml dispenser unstable. Continue to do this with the remaining 50ml dispensers.

2. Hold the completed dispenser up against the desired surface which you want to install it on. Make sure that the dispenser is flat before installing. Once you have put it in the correct position, screw through the holes in the dispenser frame. Make sure that the dispenser is held tightly to the wall to avoid the weight of the bottles moving the dispenser.
