Operating Instructions

Parts List:

If you are missing any of the below parts please contact cservice@oypla.com

Please be aware that you will be referring to this parts list throughout the assembly process.

Operation Instructions

Fill & Use:

Before first use, wash components thoroughly with warm soapy water as detailed in the cleaning instructions below.

1. Place the rotating base onto a sturdy, flat surface. Carefully place the beer chamber onto the base and turn clockwise to lock into place.
2. If using the ice chamber, insert it into the beer chamber and turn clockwise to lock into place. Fill the ice chamber with ice cubes or crushed ice. Do not fill the ice chamber with water and then freeze as this will cause the ice chamber to break.
3. Fill the beer chamber to the desired printed line.
4. Replace the lid on the beer chamber and fasten the cap.
5. To use, place a glass underneath the tap & put the tap handle forward to release the liquid.

Cleaning Instructions

Note: The tap assembly should not be removed unless necessary (for example blocked by an obstruction) and should be replaced with caution. To remove the tap, loosen the lock- collar by unscrewing it counter-clockwise. To replace the tap, screw it clockwise back onto the base & then tighten the lock-collar.

CAUTION: When removing or replacing the tap assembly, to avoid damaging the tap and its parts.

DO NOT OVER-TIGHTEN. Tighten only sufficiently to make a snug seal between the tap and its parts, then hand tighten the lock-collar.

To Clean:

1. Remove the lid and cap.
2. Remove internal ice chamber by turning it counter-clockwise.
3. Detach the beer chamber from the base by turning it counter-clockwise.
4. Wash lid, cap, ice chamber from the beer chamber thoroughly in warm soapy water.
5. Run warm soapy water through the dispenser while opening & closing the tap.

Please retain a copy of all instructions for future consultation.
