Safety Information

Please ensure you read and fully understand instructions before use

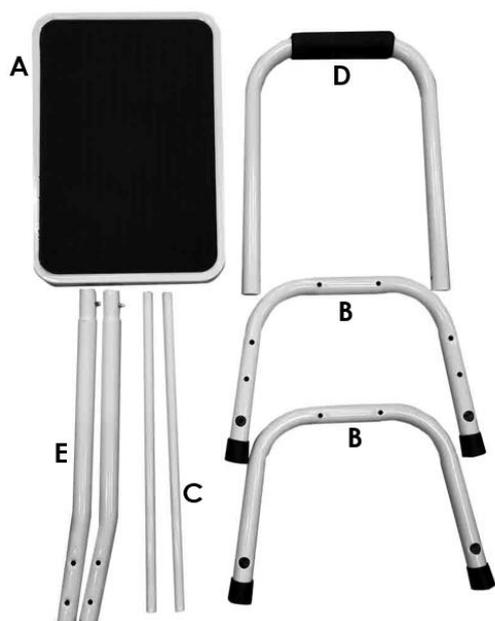

While every attempt is made to ensure the highest degree of protection in all equipment, we cannot guarantee freedom from injury. The user assumes all risk of injury due to use. All merchandise is sold on this condition, which no representative of the company can waive or change.

- Make sure all fastenings are tightly in place and that everything is in order before using the product. This should be checked periodically by an adult.
 - This product is not a toy and is only to be used for its designated purpose.
 - Do not carry out alterations or modifications to this product.
 - Clean only with a damp cloth. Do not use strong industrial cleaning substances.
 - The nuts included in this product are locking nuts, and will require a spanner or socket to fully tighten.
 - **Warning! The step's maximum capacity is 150kg. Do not exceed this, doing so may cause product failure and/or personal injury.**
 - Leaving the product outside exposed to weather, especially direct sun and rain, will speed the weathering process.
 - Only use this product on stable, level ground, clear of loose material so the rubber feet can grip.
 - Do not overload the steps. This product is meant for the use of one person.
 - Do not discard any of the packaging until you have checked that you have all of the parts and fitting required.
 - If the product is damaged or has any defects, please contact cservice@oypla.com.
-

What's In The Box?

Support Bar	2	C
Handle	1	D
Handle Support	2	E
Small Bolt	4	F
Medium Bolt	4	G
Large Bolt	4	H
Locking Nut	8	I

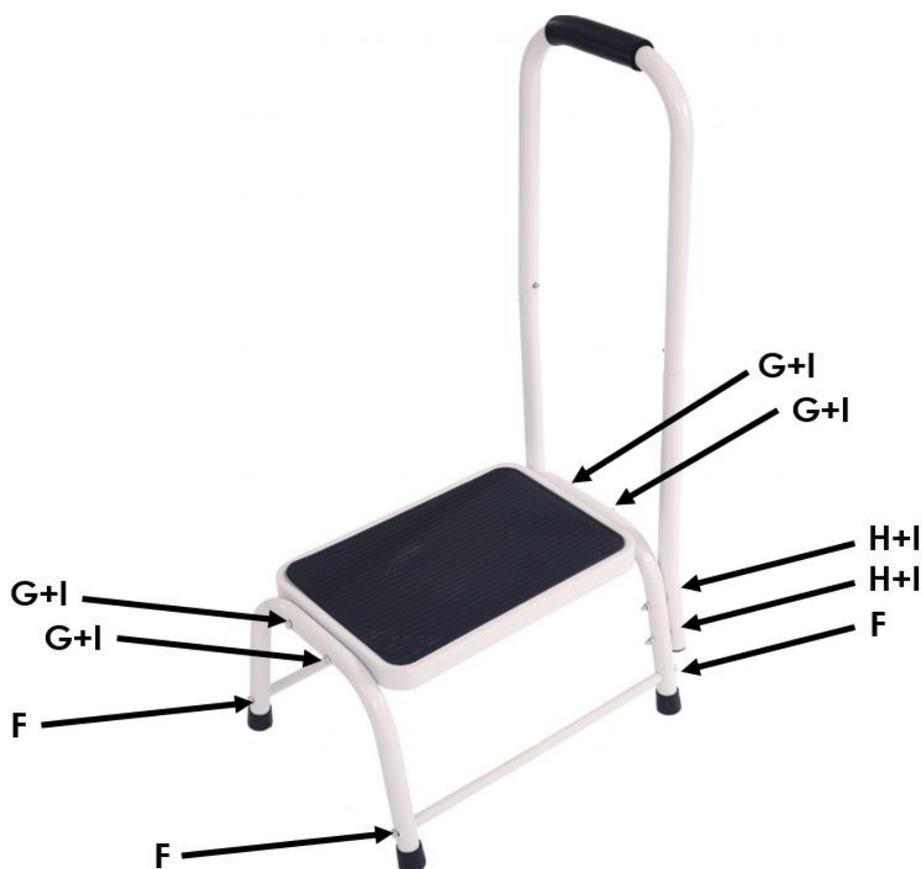

Assembly Instructions

Please refer to the below information to help assemble your Oypla product

If you require assistance with the assembly of your Oypla product, please contact our dedicated team at cservice@oypla.com.

1. Firstly, insert the support bars into one of the frames. Ensure the grooves for the step bolts are the correct way around.
2. Using the medium bolts and locking nuts, attach the step to the same frame as the support bars.
3. Using the same method, attach the other frame onto the step/frame/support bar piece that you have created.
4. Attach the handle supports to the appropriate frame using the large bolts and locking nuts.
5. Finally, attach the handle by sliding it onto the top of the support bars. Ensure the fixing nipples click into place before use.

Note: Tighten all bolts fully before using the step.
