CONSIDER THE ENVIRONMENT!

In the United Kingdom, approximately 5 billion corrugated boxes are used per year amounting to around 83 per person! By recycling the cardboard box in which this product was packed, you contribute to the preservation and sustainability of the environment.

If you see a recycling logo on the packaging of your product, such as the below examples, that piece of packaging is recyclable. If there is not a recycling logo, please check with your local authorities before recycling.

Assembly Instructions

Parts List:

If you are missing any of the below parts please contact cservice@oypla.com

Please be aware that you will be referring to this parts list throughout the assembly process.

Figure	Description/OTY	Photo
1	Base Supports (x2)	
2	Wheels (x4)	
3	Base Poles (x2)	
4	Short Thin Poles (x6)	
5	Longer Thin Poles (x18)	
6	Short Thick Poles (x12)	
7	Hex Shaped Screws and Nuts (x4)	
8	Bolts (x12)	
9	Top Connector (x2)	

10	Middle Connectors (x4)	
11	Top Pole Cover (x2)	
12	Right Side Shelf Arms (x6)	
13	Left Side Shelf Arm (x6)	
14	Hanging Arm (x2)	

1) Firstly, insert the 2 base poles (3) into the inner side holes of the base supports (1). Then using some pressure push each wheel into holes on the underside of the base supports. See photos for assistance.

2) Secondly, insert 4 short thick poles (6) into the top holes of the base supports (1). Then on either side, attach 2 middle connectors (10) which are joined by 2 short thin poles (4) which attach into the inner side holes of the middle connectors (10). Please see photos for help.

3) Now, it's time to assemble the shelves. To start, take 1 right and left sided shelf arm (12 & 13) and push into each end of the middle connector (10) (Ensure the pointed end is facing upwards) . Secure in place using 1 bolt (8) for each arm. Repeat on the other side. See photos for assistance.

4) Next, take 6 longer thin poles (5) and slide horizontally into the inner holes of the shelf arms. It is easier so start on the inside and work outwards.

5) Repeat steps 2, 3 and 4 **2 more** times until there are 3 tiers. For the top tier, ensure you use the top connectors (9) instead of middle ones as these require the four hex shaped screws and nuts (7) to secure in position. Leave some pole space above the top connector and attach the top pole covers (11) followed by the hanging arm on top.
