

# 5 Tier Kitchen Storage

# Safety Instructions

**Notice: Ensure you read and fully understand instructions before use**

**While every attempt is made to ensure the highest degree of protection in all equipment, we cannot guarantee freedom from injury. The user assumes all risk of injury due to use. All merchandise is sold on this condition, which no representative of the company can waive or change.**

- This product is not a toy, and is only to be used for its designated purpose.
- Never carry out any alterations or modifications to this product.
- This product is intended for indoor use only.
- Do not exceed the maximum shelf load capacity of 30kg or the overall load capacity of 150kg. Doing so may cause the product to break.
- Only use the product on stable, level and dry ground.
- When moving the product be sure that the path is clear of obstacles to avoid damaging the product or causing personal injury.
- Do not stand on any of the shelves if you can't reach an item. This will damage the product and risks breaking the shelf being stood on.
- Before using the product, make sure all fastenings are tightly in place and that everything is in order, and checked periodically by an adult.
- Leaving the product outside exposed to weather, especially direct sun, rain and salt air, will speed the weathering process. This can be slowed by removing the product from these conditions, or covering it with a suitable cover.
- Clean only with a damp cloth. Do not use strong industrial cleaning substances or abrasive materials as these will damage the product.
- If the product is damaged or has any defects, please contact [cservice@oypla.com](mailto:cservice@oypla.com)

# Assembly Instructions

## Parts List:

If you are missing any of the below parts please contact [cservice@oypla.com](mailto:cservice@oypla.com)

Please be aware that you will be referring to this parts list throughout the assembly process.

Part Number	Part Name	Quantity
1	Foot	4
2	Pole	8
3	Interlocking Shelf Sleeves	42
4	Shelves	5

**1.** To begin, take one foot and one pole and screw the foot into the pole. Ensure that the foot is secured correctly by tightening it into place fully. Repeat this step for each leg, making sure all are secured as they should be. Please see below example of the foot secured into the pole.

**2.** Once all feet have been attached, grab one pole and attach it on top of the poles made in the previous step, this should screw on to attach. Make sure it is fully secured on before moving on. Repeat this with the remaining poles. Once built up grab two interlocking shelf sleeves and snap them together in a position where you would like a shelf to be placed. Make sure they are placed the correct way, this can be seen by the direction in which the arrow points as well as the word "TOP". Please see example to the right.

**3.** Push a shelf down the pole and onto the interlocking shelf sleeve, ensuring that it goes as far down as possible. Once this is done repeat this step and the step previous to continue building the product. Once all shelf sleeves and shelves have been fixed, please ensure all shelves are checked fully and that they are as secure as possible before using the product (applying items onto the shelves).
