Safety Instructions

Notice: Ensure you read and fully understand instructions before use

While every attempt is made to ensure the highest degree of protection in all equipment, we cannot guarantee freedom from injury. The user assumes all risk of injury due to use. All merchandise is sold on this condition, which no representative of the company can waive or change.

- This product is not a toy, and is only to be used for its designated purpose.
- Do not make alterations or modifications to this product.
- Precautions should be taken to ensure that direct contact with the heater cannot occur.
- The surface of the heater can become hot during operation. To prevent overheating, do not cover.
- Air should be allowed to freely circulate around the heater, to avoid it overheating.
- Clean only using a damp cloth. Do not use strong industrial cleaning substances, as these may damage the product.
- The tubular heater is suitable for operation for a 230V BS Plug as shown on the identity level.
- Any shelving placed above the heater must be at a distance of at least 20cm.
- If your product is damaged or has any defects, please contact cservice@oypla.com

Warnings

Do not touch the heater whilst it is in operation.

Never cover the tubular heater.

Before cleaning, ensure the heater is cool, and switched off at the mains outlet.

Do not use abrasive cleaning powders or metal polish on any part

Do not allow the heater to operate for extensive periods of time. Always keep the heater supervised.

This heater should NOT be installed vertically.

Assembly Instructions

Parts List:

If you are missing any of the below parts, please contact cservice@oypla.com

Please be aware that you will be referring to this parts list throughout the assembly process.

Holder	2pcs	Tube	1pc
Screw	4pcs	Cable	1pc
Screw Holder	4pcs	BS Plug	1pc

- 1** The fixing bracket should be mounted according to the heater length, at a distance to adequately support the tubular heater.
- 2** Screw the two bottom halves of the bracket to the wall, place the tubular heater on brackets, and then fasten top brackets over the tub.
- 3** Before connecting the heater, check that the supply voltage is the same as that is stated on the rating label.
