Fun game rules:

Make sure you are 8-10 feet away from the dartboard. Make sure there are no hazards around you at any time.

Both players take it, in turn, to throw their three darts at the dartboard. If a dart hits a point of value, the player scores those points. After each player has thrown their three darts, the player's turn ends. The player will now add up the score. After three rounds of this, the player with the total highest score is the winner.
