

OYPLATM GARDEN

Compost Bin

USER MANUAL Model No: 4039

Safety Instructions

Notice: Ensure you read and fully understand instructions before use

While every attempt is made to ensure the highest degree of protection in all equipment, we cannot guarantee freedom from injury. The user assumes all risk of injury due to use. All merchandise is sold on this condition, which no representative of the company can waive or change.

- This product is not a toy, and is only to be used for its designated purpose.
- Never carry out any alterations or modifications to this product.
- This product is intended for outdoor use only.
- Before using the product, make sure all fastenings are tightly in place and that everything is in order, and checked periodically by an adult.
- Make sure that the area in which you decide to place the compost bin is clear of obstacles to avoid damaging the product or causing personal injury.
- When building the product, it is advised that two people build this product due to the parts requiring some pressure to put together.
- When building the product, be aware of the pinch points created when slotting the parts inside of each other.
- Do not apply any weight to the top of this product. This may damage the product.
- Leaving the product outside exposed to weather, especially direct sun, rain and salt air, will speed the weathering process. This can be slowed by removing the product from these conditions, or covering it with a suitable cover.
- Clean only with a damp cloth. Do not use strong industrial cleaning substances or abrasive materials as these will damage the product.
- If the product is damaged or has any defects, please contact cservice@oypla.com

Operating Instructions

Parts List:

If you are missing any of the below parts please contact cservice@oypla.com

Please be aware that you will be referring to this parts list throughout the assembly process.

<p>Compost Bin Side Panel</p>  <p>3pcs</p>	<p>Compost Bin Front Panel</p>  <p>1pcs</p>	<p>Compost Bin Roof</p>  <p>2pcs</p>
--	---	--

1. Have another person hold a compost bin side panel and a compost bin side panel up, ensuring that you align the latches on either the front panel or side panel with the input sections in the other part. Push these in together, the easiest way being to go from the top to the bottom. Please see the picture to the right for assistance.

2. Repeat the first step (this time with two side sections) to create the other section of the compost bin and secure both sections together the same way as you put them together (as seen in the picture to the right). Once done, either place a plastic bag in the compost bin or insert it into the ground and use it without a plastic bag.

Please retain a copy of all instructions for future consultation.
