# Safety Instructions

**Notice: Ensure you read and fully understand instructions before use**

While every attempt is made to ensure the highest degree of protection in all equipment, we cannot guarantee freedom from injury. The user assumes all risk of injury due to use. All merchandise is sold on this condition, which no representative of the company can waive or change.

- Before first use, apply vegetable oil to the surface of the stone and pre-heat slowly (start on a low temperature and slowly increase the temperature).
- Once the griddle has been pre-heated it is ready for cooking.
- After cooking, clean the griddle with a stiff nylon brush and hot water. Do not use soap or detergents as this will damage the non-stick coating.
- This product is not dishwasher safe.
- Towel dry immediately after cleaning and apply a light coating of oil while the griddle is still warm. Do not let the griddle air dry as this may cause rusting. Store the griddle stone in a cool, dry place.
- Remember that the griddle will become very hot during use. Always use oven gloves to prevent burns while moving or handling the griddle.
- If the product is damaged or has any defects, please contact [cservice@oypla.com](mailto:cservice@oypla.com)
