Safety Instructions

Notice: Ensure you read and fully understand instructions before use

While every attempt is made to ensure the highest degree of protection in all equipment, we cannot guarantee freedom from injury. The user assumes all risk of injury due to use. All merchandise is sold on this condition, which no representative of the company can waive or change.

- This product contains small parts that could be a choking hazard if swallowed. Keep these items away from children.
- Make sure all screws are tightly in place and that everything is in order before using the product. This should be checked periodically by an adult.
- Unpacking, installing and fixing the parts are to be completed by an adult.
- Never exceed the maximum load capacity of 9kg per shelf, or it may result in product failure and/or personal injury.
- This product is can be used inside or outside.
- This product is not a toy, and is only to be used for its designated purpose.
- Keep away from fire.
- Leaving the product outside exposed to weather, especially direct sun and rain, will speed the weathering process. This can be slowed by removing the product from these conditions.
- Only use this product on stable and level ground.
- Do not discard any of the packaging until you have checked that you have all of the parts and screws required.
- Use the correct screws as indicated. Do not tighten any of the screws fully until the unit is completely assembled, then finish by tightening all screws. All screws must be tightened before use.
- If the product is damaged or has any defects, please contact cservice@oypla.com.

Warnings

1) To start, ensure you have all the correct parts and quantities.

2) First, attach one of the shelves (A) to one of the side panels (C) using the large sized screws (F). Once securely in place, do the same with the remaining shelf. Repeat this step on the other side, attaching the other side panel (C). 8 screws should have been used. Please see the photo on the previous page to help.

3) Now, attach the shiny top shelf (B) on the top the frame build in step 2. Use 4 more large sized screws (F) to securely attach this in place.

4) Next, using the remaining 8 large screws (F) attach 2 of the large wooden planks (E) to the back of each shelf (middle and lower) as seen on the previous page.

5) Do the same as the previous step however, use the remaining large wooden plank (E) on the top shelf and use medium sized screws (G) to attach this. Then, get both smaller wooden planks (D) and attach using medium sized screws (G) to each end of the top shiny shelf (B). 14 medium sized screws are used in this step.

6) Lastly, attach your desired number of hooks wanted on the outer side of the small wooden planks (D) and securely drill into place using 2 small screws (I) for each hook.

CONSIDER THE ENVIRONMENT!

In the United Kingdom, approximately 5 billion corrugated boxes are used per year, amounting to around 83 per person! By recycling the cardboard box in which this product was packed, you contribute to the preservation and sustainability of the environment.

If you see a recycling logo on the packaging of your product, such as the below examples, that piece of packaging is recyclable. If there is not a recycling logo, please check with your local authorities before recycling.

PLEASE RETAIN A COPY OF THESE INSTRUCTIONS FOR FUTURE CONSULTATION
