

# Pressure Sprayer

# Safety Instructions

**Notice: Please read all instructions carefully before using this product.**

While every attempt is made to ensure the highest degree of protection in all equipment, we cannot guarantee freedom from injury. The user assumes all risk of injury due to use. All merchandise is sold on this condition, which no representative of the company can waive or change.

- This sprayer is designed for the application of agricultural chemicals, disinfectants, cleaning agents etc. Do not spray caustic or corrosive solutions as these will damage the sprayer.
- Wash the inside of the spray tank with clean water after each usage.
- Always wear the correct personal protective equipment whilst using, cleaning and servicing the sprayer.
- Do not expose the sprayer to strong sunlight when storing as to prevent deterioration of the tank.
- Store the sprayer in a well-ventilated area, out of the reach of children and animals.
- Always spray downwind of the operator. Spraying into the wind will result in operator contamination.
- Do not smoke whilst using the sprayer.
- If the product is damaged or has any defects, please contact [cservice@oypla.com](mailto:cservice@oypla.com).
