Safety Instructions

Notice: Ensure you read and fully understand instructions before use

While every attempt is made to ensure the highest degree of protection in all equipment, we cannot guarantee freedom from injury. The user assumes all risk of injury due to use. All merchandise is sold on this condition, which no representative of the company can waive or change.

- This fan is intended for household use.
- To protect against electrical shock, do not immerse fan, plug or cord into water or spray with liquids. KEEP AWAY FROM ALL LIQUIDS.
- Close supervision is necessary when any appliance is used near children.
- Always unplug the fan when it is not in use, when moving fan from one location to another, and before cleaning.
- Avoid contact with moving parts. Never insert fingers, pencils or other similar objects through the guard.
- Do not operate in the presence of explosive or flammable fumes.
- Do not place fan or parts near an open flame, cooking or other heating appliances.
- This appliance is not intended for use by children or other persons without assistance or supervision if their physical, sensory or mental capabilities prevent them from using it safely.
- If the product is damaged or has any defects, please contact cservice@oypla.com

- Do not operate fan with a damaged cord, plug or after the fan suffered malfunctions or has been dropped or damaged in any manner.
- The use of attachments not recommended by manufacturer may be hazardous.
- Do not use outdoors.
- Do not let cord hang over the edge of a table or counter, or let it touch any hot surfaces.
- To disconnect, grip plug and pull from wall outlet, never yank the cord.
- Always use on a dry level surface.
- The fan is only for intended use as described in this manual. All other uses, not recommended in this manual, may cause fire, electrical shock or injury to persons.
- If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or similarly qualified person in order to avoid a hazard.
- Do not operate without fan lattice/grille is properly in place.
- Ensure long pile carpets do not restrict airflow under the unit.

Additional Warnings

- ⚠ Keep away from all liquids.
- \triangle Never cover the fan, doing so creates a fire risk.
- ⚠ Ensure long pile carpets do not restrict airflow under the unit.
- ⚠ Never cover or restrict airflow to the inlet or exhaust grilles in any manner, as the appliance may overheat and become a fire risk.
- ⚠ Do not block air inlets or outlets in any manner. Check the openings from time to time for accumulated dust.

✓ WARNING ✓

To reduce the risk of fire, electrical shock, or injury when using this product, follow these basic precautions:

- · Read all instructions before using the product.
- · Never allow children to operate or play with the product.
- Do not immerse the product in water.

Assembly Instructions

Parts List:

- If you are missing any of the below parts, please contact cservice@oypla.com

Please be aware that you will be referring to this parts list throughout the assembly

process.

Fan Blade

Front Fan Guard

Back Fan Guard

Fan cover Plate

Fan Blade Locking Nut

Feet Stoppers [4pcs]

Small Screw with Washer [3pcs]

Base Stand [2pcs]

Lower Stand Pole

Fan Body

Base cover

This fan should be properly grounded for your safety. The power cord of this fan is equipped with a three-prong plug, which mates with standard three prong wall outlets to minimize the possibility of electrical shock.

Do not under any circumstances cut or remove the third ground prong from the power cord supplied.

This fan requires a standard 220~240Volts A.C. ~/50Hz electrical outlet with three-prong ground.

The cord should be secured behind the fan and not left exposed or dangling to prevent accidental injury. Never unplug the fan by pulling the power cord. Always grip the plug firmly and pull straight out from the receptacle.

Do not use an extension cord with this appliance. If the power cord is too short, have a qualified electrician or service technician install an outlet near the appliance.

1. Begin by taking the fan body (part 10). Unscrew the back fan-locking nut (part 5). Take the back fan guard (part 3) and slide onto the fan body (part 10). Make sure the two prongs align on the fan body (part 10) with the holes on the back fan guard (part 3). When aligning the back fan guard (part 3) make sure the handle is facing upwards like in the image above. Do not over tighten.

2. Take the fan blade (part 1) and slide onto the fan body you have just created. Now secure the fan blade using the fan blade-locking nut (part 5) turn anti-clockwise to tighten but do not over tighten. Please see the image above.

3. Take the front fan guard (part 2). Unfold each tab located either side of the fan guard. Place the fan cover plate (part 4) and in the middle of the front fan guard. Lock the fan cover plate using the three screws provided (part 7). Located at the bottom of the fan guard there is a little nut and bolt. Unscrew this part and keep, as you will need this part in the next step. Do not over tighten. Please see the image above.

4. Place the Front fan guard that you have just created in the last step, place on the fan body making sure the holes align at the bottom of both fan guards. Please place the nut and bolt through each hole and tighten. Fold each tab down to secure the front guard into place. Do not over tighten. Please see the image above.

5. Take the base stand (part 8) and unscrew the screws marked as A in the image above. Slide both base stands (part 8) together like the image above.

6. Take the lower stand pole (part 9) and place over the base stand you have just created in the last step. Use the four screws from step 5 to secure the lower stand pole into place. Do not over tighten. Please see the image above.

7. Unscrew the height adjuster marked as point A in the image above. Remove part A, and slide the base cover (part 11) over the top of the base stand. Screw part A back onto the base stand. Do not over tighten. Please see the image above.

8. Take all four feet stoppers (part 6) and clip into the bottom of the base stand. Force may be needed to secure into place correctly. Please see the image above.

9. Unscrew the knob that is marked as A in the image above. Now slide the fan body onto the base stand. Once you have done this, use the knob marked as A to secure both parts together. Do not over tighten. Please see the image above. Check over your product thoroughly before use. Now your product is ready to use.

Operating Instructions

Please refer to the information below for instructions on how to operate your product.

- Ensure voltage used corresponds with the voltage indicated on the rating label. Located on the product.
- 2. Turn the speed control to selected speeds: 0 (Off) and speeds 1, 2 and 3 for Slow, Medium and Fast.
- 3. Tilting angles-By pushing the tilt-guard, you can adjust the fan to an elevation of your preference.
- 4. Never touch the blades with your hand or any object!
- 5. Do not pull the power cable too hard. If damaged after use, get any repairs performed by a qualified electrician.
- 6. To start Oscillation, push down on the knob marked as A "Oscillating Knob".
- 7. To stop Oscillation, pull up on the knob marked as A "Oscillating Knob".
