

Bike Holder

Safety Instructions

Notice: Ensure you read and fully understand instructions before use

While every attempt is made to ensure the highest degree of protection in all equipment, we cannot guarantee freedom from injury. The user assumes all risk of injury due to use. All merchandise is sold on this condition, which no representative of the company can waive or change.

- Make sure all fastenings are tightly in place and that everything is in order before using the product. This should be checked periodically by an adult.
- Do not discard any of the packaging until you have checked that you have all of the parts and fittings required.
- Use the correct fixings as indicated. Do not tighten any of the nuts until the unit is completely assembled, then finish by tightening all nuts. All nuts must be tightened before use.
- Do not carry out alterations or modifications to this product.
- Persons (including children) with reduced physical, sensory and mental capacities or lack of experience and knowledge do not intend this product for use, unless persons responsible for their safety have given them supervision or instruction concerning use of the product.
- Ensure holder is secured onto the wall correctly before placing a bike onto the holder
- Ensure the bike is securely on the holder before leaving the room.
- If the product is damaged or has any defects, please contact cservice@oypla.com

Operating Instructions

Step 1: Find a suitable place on a solid wall to put the bike holder. Mark the four holes on the bike holder onto the wall using a pen or pencil.

Step 2: Drill the holes into the wall using a drill.

Step 3: Place the bike holder onto the wall so that the holes on the bike holder line up with the holes you have drilled into the wall. Then using the screws provided screw those into the holes so that they are fully in.

Step 4: Lift your bike and using the front wheel hang this onto the hook on the bike holder.

Please retain a copy of all instructions for future consultation.
