Warnings

The maximum weight capacity for the hooks is **10kg**. Do not exceed this.

Check for hidden pipes and cables before drilling into any walls.

Do not use a drill bit that is larger in girth than the wall plugs.

Operating Instructions

1. Whilst holding the hooks up to the desired mounting surface, gently use a pencil to mark the two screw holes. Use a spirit level to ensure the hooks are not slanted.
2. Remove the wall hooks from the mounting surface.
3. Using a drill, create the two holes for the wall plugs and screws. *Ensure you have checked for pipes and cables before drilling into any mounting surface. *Do not drill the holes deeper than they need to be. *Do not use a drill bit larger in girth than the wall plugs.
4. Insert the wall plugs into the newly created holes.
5. Hold the wall hooks back against the mounting surface, aligning with the two newly created holes.
6. Use a drill or screwdriver to insert the screws into the holes, with the hooks in between the screw and hole.
7. Cover the screw heads with the caps provided, if desired.
