Safety Information

Please ensure you read and fully understand instructions before use

While every attempt is made to ensure the highest degree of protection in all equipment, we cannot guarantee freedom from injury. The user assumes all risk of injury due to use. All merchandise is sold on this condition, which no representative of the company can waive or change.

- This product contains small parts that could be a choking hazard if swallowed. Keep these items away from children.
 - Make sure all fastenings are tightly in place and that everything is in order before using the product. This should be checked periodically by an adult.
 - This product is intended for outdoor use only.
 - Never exceed the maximum load capacity of 150kg, or it may result in product failure and/or personal injury.
 - This product is not a toy, and is only to be used for its designated purpose.
 - Do not carry out alterations or modifications to this product.
 - Clean only with a damp cloth. Do not use strong industrial cleaning substances.
 - Leaving the product outside exposed to weather, especially direct sun and rain, will speed the weathering process. This can be slowed by removing the product from these conditions, or covering it with a suitable cover.
 - Do not discard any of the packaging until you have checked that you have all of the parts and fittings required.
 - Use the correct fixings as indicated. Do not tighten any of the nuts until the unit is completely assembled, then finish by tightening all nuts. All nuts must be tightened before use.
 - If the product is damaged or has any defects, please contact cservice@oypla.com
-

Support Bar	2
Wheel Axle	1
U-Bar	1
Split Pin	2

Assembly Instructions

Please refer to the below information to help assemble your Oypla product

If you require assistance with the assembly of your Oypla product, please contact our dedicated team at cservice@oypla.com.

-
1. Attach the U-Bar to the support bars using nuts, bolts and washers to create the below structure.

-
2. Apply the support bar to the created structure using two more nut, bolt and washer sets.

3. Attach the handle to the structure, but do not secure into place using nut, bolt and washer sets yet, as the bucket needs to be attached beforehand.

4. Lay the bucket in place so that it aligns with the four holes, as shown in the image below.

-
5. Secure into place using four bolt, nut and washer sets.

6. Insert the wheel axle through the holes in the U-Bar, like the below photo.

7. Loosely apply the wheels, before securing into place properly with a washer and a split pin. Fray the ends of the split pin to secure it into place.
